# Access

*The quality modular chair built to match the patients needs*

The Access chair has evolved with Wheelchair Service & end user input to become a highly modular wheelchair that is built to meet your specific prescription. The chair can be configured for the Active user through to those less able users who need a chair configured for the carer to safely move them in both indoor and extreme outdoor conditions.

We pride ourselves on our customer focus and after sales service.

## Relax with Superhead

Superhead is the highly adaptive headrest system suitable for all standard wheelchairs.

- Suitable for use as head support in a transportable situation.
- Fully adjustable head support.
- Provides optimum comfort and is easily adjustable.
- Unique folding mechanism allows system to fold with the wheelchair.
- Fits wheelchairs from 33cm - 61cm.
- Durable yet lightweight aluminium construction.
- High quality, fire retardant fabrics for comfort and safety.
- Available in four sizes.

**3 YEAR  
WARRANTY**

# Added Seat Depth

**Need an extra 2" depth then Accent is the answer.**

Simply uses a back rest tube set 2" further back on the side frame. Access has become many Seating Clinics chair of choice as it gives better weight distribution than standard chairs thereby not straining the front castors and making manoeuvrability for the carer or user easier.

- Up to 190kg user weight (over 29 stone)
- 19" Seat depth
- 6 seat widths from 17" to 24"
- Perfect for seating systems allowing better weight distribution than standard chairs
- Available in Black

## Choice of options including

- Alternative Wheelbase Positions
- Backrest Reinforcer
- Height Adjustable armrests
- Height and Length Adjustable Push Handles
- Anti-tip Stabilisers
- Back rest extensions of either 6", 9" or 12"
- Optional back rest angle
- 2" Cushion
- Super Head

**Access due to their immense modularity have potentially in excess of half a million combinations. Prescribing is now even easier with our "all new" simple tick the options prescription forms allowing you to build the chairs you require.**

The easy to use prescription form guides you through the process to build the chair that you require for the client. For prescription form and full technical specifications please refer to the RHealthcare Technical Manuals.

These Access wheelchairs are also ideal for portering chairs and are used in many NHS Trust hospitals across the UK. Taking up to 190kg users (over 29 stone). We offer various ways to personalize wheelchairs to meet your needs, including custom signage on the back canvas. This enhances visibility and reduces the risk of the wheelchair being lost, which helps the Trust save on regular stock replenishment costs.

## ACCESS ISO 7176 IMPACT STRENGTH & DYNAMIC TESTS

Transport compatible, crash tested at 48Kmph/30mph  
Approved for use with webbing tie down and occupant restraint system (wtors) not clamps,
